B 12. Recovery of rents.

(Subject to the approval of the Secretary of State)

With effect from 1st January 1926 and in supersession of all previous orders on the subject the following rules will govern the recovery of rents from those military officers whose emoluments do not include lodging allowance as a separate item while occupying Government quarters (other than hostels) including quarters acquired on lease under the House Accommodation Act or hired with the sanction of competent authority. (Note—The rules relating to the recovery

rent for accommodation in hostels have been published in Army Instruction (India) No 1007 of 1925)

- (a) The maximum rent chargeable will be 10 per cent and 5 per cent of salary as defined in Army Instruction (India) No 810 of 1925 in the case of married and unmarried officers respectively or the assessed rent if it is less than the abovementioned limits
- (b) A married officer whose family is residing with him will be allotted married quarters if available. If his family is not residing with him he may claim that single quarters be allotted to him and he will then be liable to pay rent up to 5 per cent of his salary
- (c) If a married officer has under the above rule been allotted single quarters and is subsequently joined by his family, he will be required to intimate the fact to the Officer Commanding station one month beforehand, so that arrangements may be made for providing him with married quarters
- (d) If a married officer is allotted married quarters and his family leave him for a period of less than six months he will not be entitled to claim unmarried quarters and will continue to pay rent at married rates
- (e) If a married officer is allotted married quarters and his family leave him for a period of not less than six months he may on certifying to this effect claim that unmarried quarters be allotted to him on the departure of his family and within one month of the date of his application. He will then pay rent only up to 5 per cent of his salary even though occupying married quarters for administrative reasons in which case he may be required to share the quarters with other officers. If however his family rejoins him before the expiry of six months he shall forfeit the concession of being charged rent at 5 per cent and will be required to pay rent at 10 per cent of his salary for the whole period.
- (f) If for administrative reasons an unmarried officer has been allotted a married quarter he is liable to pay only 5 per cent of his salary as rent, but he may be called upon to share the quarters with other officers. In such cases, a certificate by the Officer Commanding station will be required to support recovery at the lower rate.

2 The rent of buildings occupied as residences by General Officers holding appointments of a status higher than that of a General Officer Commanding 2nd class District or whose pay does not include lodging allowance as a separate item will be assessed in accordance with the ordinary rules

3 Any cases in which rent has not been recovered prior to 1st January 1928 in accordance with the principle embodied in clause (a) above will remain undisturbed

B 13. Incidence of cost of establishment in Military Engineer Services cost accounted services.

With reference to Army Instruction (India) No 912 of 1925 and a supersession of paragraph B (b) of Army Instruction (India) No 727 of 1925 the following procedure relating to incidence of cost of establishment of cost accounted services will come into force from the 1st April 1926

2 In cases where services are cost accounted e.g. completed electrical and mechanical installations and workshops also manures there are two main classes of personnel viz (i) those employed on administration and supervision duties and (ii) those employed on maintaining and operating the plant etc

The pay and allowances of (i) viz persons above the rank of superintendent in actual charge will be charged to the establishment grant and in costing the installation they are allowed for in the on costs provision

NOTE—If a Sub-Divisional Officer or Sub-Overseer is placed in sole charge of an installation he is not classed as supervising

As regards (ii) the personnel employed may be permanent temporary or casual. The pay and allowances of permanent and temporary personnel will in the first instance be charged to a separate sub-head of the establishment grant and will be transferred at the end of each month to the maintenance and operating estimate of the installation concerned. The pay of the casual establishment will be charged direct to the maintenance and operating estimate of the installation etc

3 In smaller stations it may be desirable in the interests of economy to employ some of the personnel at (ii) part time on other works e.g. maintenance of internal wiring. In such cases the Commanding Royal Engineer will decide having regard to the time employed on works other than maintenance and operation how much of the pay and allowances of permanent and temporary man will remain a charge against the establishment grant and how much of the pay of casual establishment will be charged direct to maintenance and operation and how much to other works

APPENDIX to ARMY INSTRUCTION (INDIA) No B 14 of 1925

Regulations for the commutation of pensions of warrant officers of Indian Army Departments.

1 A retired warrant officer may be allowed to commute a portion not exceeding one third of his pension provided that the amount left uncommuted is not less than £80 a year. The commutation may take place on retirement or at any time subsequent thereto. Commutations effected in India will be calculated on the Indian rate of pension and should the pensioner subsequently move to Europe or to a colony the rate of pension payable will be calculated by deducting from the European rate of pension a fraction corresponding to the fraction of the Indian pension which has been commuted.

2 If a pensioner who is desirous of commuting is residing in Europe he must apply in writing to the Under Secretary of State India Office and will be required to fill up a form giving full particulars of his financial circumstances, and stating the purpose for which he wishes to commute. If residing in India he should address the Controller of Military Accounts from whom he draws his pension. If he resides in a colony he should address the official from whom he draws his pension.

3 If the pensioner is married the written consent of his wife to commutation must be produced and her signature must be witnessed by a magistrate, clergyman or other responsible person.

4 The application must be accompanied by letters from persons of good standing and preferably of official position stating why in their opinion commutation would be to the distinct and permanent advantage of the pensioner and no application to commute will be approved until the Secretary of State for India in Council or the Government of India is satisfied of this.

5 If the application is approved, the pensioner will be informed accordingly and will if residing in Europe be required to attend the India Office for examination by the Medical Board as to the condition of his health. If residing in India he may appear before the Medical Board at any station that may be convenient and he will be being assembled under the orders of the Local Government. He will be aided over by the Chief Civil Administrative Medical Officer of the Province (when practicable). If residing elsewhere he should apply to the official from whom he draws his pension for an assembly of a Medical Board. In India the Medical Board will be assembled in the following form —

We have carefully examined
opinion that he is (or is not) in receipt of

has not) the prospect of an average duration of life. We therefore (or do not) recommend compliance with his application to be allowed to capitalise a portion of his pension.

6 If the Secretary of State for India in Council shall approve the commutation subject to the report of the Medical Board at the India Office as to the Warrant Officer's expectation of life the Warrant Officer will be informed of the capital sum which will be payable to him in the event of his being found to have an average expectation of life. At the same time he will be instructed as to the date on which he should present himself for examination by the Board. He will have the option of withdrawing his application at any time before the date fixed for his medical examination.

7 The applicant will be required to furnish for the Board's information such particulars as to his health and habits as are usual in the case of persons proposing to assure their lives with assurance companies.

8 No travelling or other expenses in connection with this examination are chargeable against the public.

9 No commutation shall be sanctioned unless the Medical Board consider that the pensioner is in a state of health which affords an average expectation of life.

10 The basis of commutation shall be the following table the age of the pensioner being reckoned at the age he will attain on the birthday next succeeding the date on which the capitalised sum will become payable —

12 The capitalised sum will be payable in India if the commutation is effected there otherwise it will be payable in England. In each case the pension will be issued in full up to the date of payment unless any delay has been caused by the pensioner's own fault or that of his agents

13 In any case in which a pensioner shall accept public employment involving the withholding of a pension a deduction will be made from the salary payable to him equal to the amount which would have been abated from the pension if it had not been commuted and in the event of his becoming entitled to a pension in respect of such employment the amount of such pension granted to him shall not exceed the amount which he might have received had his pension not been so commuted

B 51 Rules governing the grant of travelling allowances to families entitled to conveyance apart from the head of the family and when the head of the family travels on warrant or by route march.

The following is the scale of travelling allowances admissible to families entitled to conveyance when travelling apart from the head of the family or when the head of the family travels on warrant or by route march —

For journeys by railway — One fare for each adult member of the family and one half fare for each child of the class in which entitled to travel and for whom such fare is actually paid.

For journeys by road — One mileage allowance for one member of the family a second mileage if two members of the family or third if more than two members travel at the rate to which the grade entitles them.

For river journeys — Journeys costing Rs. 8 or more will be paid on warrant in other cases actual expenses within the authorised limits will be admitted.

Baggage — Ordinarily the scale of baggage will be restricted to the family scale laid down in paragraph 80-F (C) of Army Regulations India Volume X in the case of a family entitled to conveyance apart from the head of the family. In cases where the head of the family travels on warrant or by route march the amounts which may accompany the individual and the family may be varied provided that the total amount conveyed free does not exceed the maximum scale for the individual and his family and that no extra expense to the State

A portion of the number may be granted free conveyance to accompany the head of the family and a portion to accompany the family provided that the total number of servants conveyed does not exceed the maximum number for which free conveyance is authorised by paragraph 104 of Army Regulations India Volume X, and that no extra expense to the State is involved. The servants together with the baggage accompanying the family will be conveyed on warrant.

2 The revised procedure with regard to the conveyance of baggage and servants will in cases where the head of the family is required to travel on warrant necessitate the issue of two warrants instead of one viz one for the servants and baggage accompanying the family and one for the head of the family and the portion of baggage and servants which accompanies him. In order to facilitate audit check the second warrant issued must be prominently endorsed at the top in red ink with Linked with Warrant No

3 Families who are required to travel on warrant under any specific rule in Army Regulations India Volume X, are not entitled to draw travelling allowances as above except in cases where warrants cannot be issued.

4 Army Regulations India Volume X, will be amended in due course.

B 91 Proficiency Pay—Indian Army

With effect from the 1st July 1926 proficiency pay at the rate Rs 2/8/ per man a month will be introduced for the Indian Army in accordance with the rules contained in the appendix to Instruction.

2 Proficiency pay will take the place of good conduct pay but will be drawn in addition to specialists' allowances.

3 Non-commissioned officers of effective rank will not be eligible for proficiency pay but will continue to draw good service pay—the rules regarding the grant of which are contained in paragraph 287 seq Pay and Allowance Regulations Part I.

4 Proficiency pay will be admissible only to men enlisting on or after the 1st July 1926 men serving before that date will continue to be governed by the existing conditions.

5 It is not the intention at present to enforce the educational qualification in the Rules governing the grant of Proficiency Pay until education in the Indian Army becomes more widespread, but commanding officers are reminded of the military value of education and the urgent need for its encouragement.

6 Pay and Allowance Regulations Part I are being amended by the insertion of new paragraphs 84 A and 297 A, and a new Appendix A.

A-31784 (A. G 10)/C

Rules governing the grant of proficiency pay

- 1 In order to become eligible for proficiency pay a soldier must
 - (a) have at least two years service with the colours
 - (b) be in all respects physically capable of performing duties in the arm of the service to which he belongs
 - (c) be certified by his commanding officer to be in all respects a thoroughly trained efficient soldier
 - (d) be in possession of a third class certificate of education

2 The qualifications under clause (c) of the preceding paragraph include a satisfactory physical standard and special qualifications according to the arm to which the soldier belongs. No standard will be laid down but commanding officers will be held personally responsible for authorizing the grant of proficiency pay only in the cases where soldiers show energy and ability in their respective arms by becoming proficient in musketry signalling range-taking or laying or such other qualification as may be required by their respective arms. The standard of proficiency will be the same for all trained soldiers in the arms to which they belong.

3 Proficiency pay will be issuable irrespective of the length of the engagement under which the soldier is serving with the colours.

4 Lance-nalks and holders of equivalent appointments will be required to satisfy the conditions in paragraph 1.

5 A soldier transferred to another arm of the service, or to another unit in which proficiency pay can be granted will continue to receive any proficiency pay that he may be drawing at the time of transfer pending the result of his next classification.

6 Previous colour service in any other unit will if acknowledged on enlistment or re-enlistment count towards the period of service required to qualify for the grant of proficiency pay.

7 Previous service forfeited for desertion or fraudulent enlistment will not be allowed to count unless restored in accordance with paragraph 574 (H) of Pay and Allowance Regulations Part II.

8 Forfeiture of proficiency pay —

- (I) A man who has a second or further red ink entry within a period of twelve months is ineligible for proficiency pay for twelve months from the date of the second or subsequent entry.
- (II) If a man is rendered physically inefficient by result of venereal disease or its effects, or from the result of alcoholism, or drug taking as certified by the medical officer he will forfeit proficiency pay from the date on which such inefficiency becomes apparent, but he will have such pay granted to him after completing one year's ordinary duty at the discretion of the commanding officer.

B 91 (App)—93 (App)

9 When once a soldier has qualified for and is in receipt of proficiency pay he will continue to draw it until such time as it may be withdrawn by the commanding officer on account of inefficiency. Proficiency pay if subsequently restored will then be drawn with effect from the date on which the commanding officer considers the soldier to have become efficient again.

The commanding officer's decision as regards the grant of proficiency pay is final and the authority for drawing this pay is the warrant order authorizing it.

10 With the introduction of proficiency pay good conduct badges will continue to be granted and worn after two four and six years service irrespective of whether a man is drawing proficiency pay in accordance with the rules contained in paragraphs 928-946 of the Royal Warrant governing the wearing of badges as applicable to British troops.

Travelling allowance on the temporary duty scale plus the cost of conveying baggage up to 17 maunds by passenger train will be granted to lady nurses temporarily recruited in India for journeys from places of residence to their first stations and on termination of their agreements from the places of employment to their places of residence in India.

B 201 Use of Government Transport instead of hired transport

B 201

To effect an increase in the economical use of Government transport vehicles and to reduce the charges at present incurred on hired transport for the convenience of Government stores and the performance of other station duties. In the Army Service Corps and in the Indian Army Service Corps, the existing military transport whether mechanical or not, and all other transport, must not be used in preference to Government transport.

- (1) The service can be earned out at no greater cost by means of Government transport.
- (2) The vehicle may be used only during the period of resumption of training and not otherwise except with the previous sanction of the Quarter Master General in India.
- (3) The vehicle must conform to the economic capacity of the mechanical transport vehicle.
- (4) Mechanical transport must not be used in preference to animal transport unless animal transport is otherwise fully occupied either in training or on station duties.

The extent to which mechanical transport may be employed under these rules will be limited to the total amount of the funds provided under the local hired transport grant plus the authorized mileage allowance. Within this amount and subject to the clearance of the above principles the use of mechanical transport will always be considered when comparatively long distances are to be covered and a definite trip can be arranged for the collection and delivery of economic loads.

Funds provided from the local hired transport grant will be allocated as laid down in the Regulations for the Mechanical Transport Service in India (A. R. I. 1 of 1914) part 4) paragraph 57 (ii) (a) and (b). Credits under paragraph 57 (ii) (b) will be reported to Army Headquarters monthly through the Controllor of Military Accounts concerned.

The necessary amendment to paragraph 513 Regulations for the Army in India, will be made in due course.

1 Extra leave for the purpose of study may be granted by the Government of India or by local Governments to officers of the Indian Medical Service on the recommendation of the Director General Indian Medical Service. The powers granted by these rules to the Government of India or to local Governments may be delegated by them to the High Commissioner for India subject to any condition they may think fit to impose.

2 The period of such study leave will be calculated at the rate of one-twelfth of the same service as qualifies for leave under Rules 77 and 78 of the Fundamental Rules up to a total in any case of 18 months in all during an officer's service.

3 Study leave may be taken at any time but an officer who retires, except on account of ill health, not later than three years from the date of return to India after taking study leave shall be liable to the cancellation of any benefits which he has received under these rules in respect of that study leave, and to the refund of any additional money received under them.

4 The minimum period of study which will render an officer eligible for study leave shall be two months.

5 The minimum period of leave granted solely as study leave shall be six months. Time spent on the journey to and from India by an officer whose study leave is not combined with any other kind of leave will reckon as study leave but the allowance specified in Rule 10 will not be granted during the period of the journey. An officer whose study leave is combined with any other kind of leave will however be required to take his period of study leave at such a time as to retain at its conclusion a balance of other previously sanctioned leave sufficient to cover his return journey to India.

When an officer has been granted a definite period of study leave and finds after arrival in England that his course of study will fall short of the sanctioned period to any considerable extent his absence from India will be reduced by the excess period of study leave unless

he produces the consent of the authorities in India to his taking it as ordinary leave.

6 Study leave can be combined with any other kind of leave provided the period occupied in study is not less than two months and in the case of leave granted on medical certificate provided that the Medical Board at the India Office certifies that the officer is fit for study. The total period of absence from duty will be strictly limited to the period prescribed by the Leave Rules to which an officer is subject.

7 Except as provided in Rule 8 all applications for study leave shall be submitted for approval with the Audit Officer's certificate to the Director-General Indian Medical Service through the proper channels and the course or courses of study contemplated with full details in relation to which study will be undertaken and the estimated need for stipendium of each course and any examination the candidate proposes to attend, shall be clearly specified therein.

A copy of the approved programme of study will be forwarded by the Director-General Indian Medical Service to the Secretary to the High Commissioner for India, General Department. If it is not possible for an officer to give full details as above in his original application, or if after arrival in England he wishes to make any changes in the programme which has been approved by the Director-General Indian Medical Service, he should immediately on arrival in England apply to the Secretary to the High Commissioner for India, General Department for a form on which to submit the required particulars. In such cases the officer should not unless prepared to do so at his own risk commence his course nor incur any expenses in connection therewith until he receives approval to the course through the High Commissioner.

8 Officers on leave who wish to have part of the leave converted into study leave or to undertake a course of study during leave should before commencing study and before incurring any expenses in connection therewith submit a programme of their proposed course of study to the Secretary to the High Commissioner for India, General Department on a form which can be obtained on application to the General Department Office of the High Commissioner for India. The programme should be accompanied by an official syllabus of the course if one is available and by any documentary evidence that the particular course or examination has the approval of the authorities in India. In the absence of such evidence the programme may if approved be proceeded with but no study leave allowance will be admissible until the concurrence of the authority in India concerned is received.

Similarly officers on leave who desire to have it extended for purposes of study should address the Secretary to the High Commissioner for India, but in addition to furnishing a statement of proposed study they must support their applications with documentary evidence of their having obtained the approval of the authorities in India to their applying for an extension of leave.

B 206 (App)

must also produce documentary evidence of the concurrence of the authority in India concerned to the grant of study leave and for study allowance

II An officer may be permitted to undertake or commence a course of study during leave on average pay and draw study allowance in respect thereof provided that study allowance is not drawn for an aggregate period exceeding 12 months during the whole of an officer's service.

10 For the course of study a study allowance at present fixed at 12s a day in the United Kingdom, £1 a day on the Continent of Europe and £1 10s in the United States of America will be admissible. These rates are liable to revision. No payment in respect of study allowances will be made until the satisfactory certificates as required by Rule 12 are furnished on the completion of the course of study.

It is to be understood that in order to qualify for the grant of study leave or for the receipt of study allowance a definite course of postgraduate study at a recognised institution or of study ordinarily associated with postgraduate work, which must be approved as suitable by the Director General Indian Medical Service or by the Medical Adviser to the Secretary of State for India and which will occupy the time of the officer for a minimum of five days a week and five hours a day must be pursued. Courses of study intended for students preparing for their primary medical qualifications will not be approved.

This allowance will not be admissible to an officer who retires from the service without returning to duty in India after a period of study leave, and is liable to be refunded under Rule 8 above in the case of retirement otherwise than on account of ill health within three years of return to India.

Periods not exceeding 14 days of vacation or interval between two courses of study may at an officer's option be treated as study leave in which case the study allowance will be issued. Alternatively such periods may be taken as ordinary leave in which case study allowance will not be issued. If such periods exceed 14 days the excess will be treated as ordinary leave without study allowance.

No course of study will be recognised as study leave for the purpose of the allowance or for any other purpose unless the course of study has been approved in accordance with paragraphs 7 and 8 above.

11 The rate of pay admissible during study leave is as follows —

Half average pay subject to the maxima and minima prescribed in Rules 60 and 61 of the Fundamental Rules. The rate of exchange prescribed by the Secretary of State in Council for the conversion of leave salary (other than that admissible during the first four months of a period of leave on average pay) shall apply to these allowances.

In supersession of all previous orders on the subject it has been decided that with effect from the 1st April 1927 the grants for the above services shall be brought more closely together in the Budget and shall consist of the following main head sub-head and minor heads—

Main Head II — Administrative Services

Minor heads—

- (a) Governor General's Band
- (b) Recruiting Staff

- (d) Military Prisons and Detention Barracks
- (e) Indian religious teachers in Indian units

Only such portion of the grants (i.e. detailed heads) as provide funds which can be controlled locally will be distributed in the budget and the balance will remain centralised

2 The grants will be administered and controlled in accordance with the following rules—

(i) The Adjutant General in India will be the administrative authority at Army Headquarters responsible for the control of expenditure

(ii) The General Officers Commanding-in-Chief at Commands the General Officer Commanding Burma Independent District and the General Officer Commanding Aden Independent Brigade will be responsible for the control of expenditure under the following detailed head of Sub-head M—Miscellaneous Services under the control of the Adjutant General in India under main head II —

Miscellaneous expenditure incurred regimentally on account of stores

Note—This does not however apply in the case of Hill Sanatoria and Depôts which will continue to be governed by the orders in Army Instruction (India) No 188 of 1925

(iii) Budget estimates of expenditure for the various forms referred to in paragraph 1 above will be prepared on India

Form A. 211 in detail of detailed heads of account and with reference to the rules in paragraphs 26 and 27 Army Regulations India Volume III. In the case of all appointments and fixed charges for which provision is made in the budget, the number and date of the order sanctioning the appointment or charge should be quoted in India Army Form A. 211.

(iv) In the case of minor head (c) referred to above estimates will continue to be prepared and furnished as hitherto. As regards other minor heads mentioned above the budget estimates will as far as possible be prepared at Army Headquarters and with this object in view the Adjutant General in India will consider what estimates or information it will be necessary to call for from Commands Burma Independent District and Aden Brigade. To facilitate consideration of this question, the Adjutant General in India will examine each minor head in detail and divide the items into the following categories —

- (a) those in respect of which all necessary information is available at Army Headquarters
- (b) those in respect of which the information at Army Headquarters is partial only and will have to be supplemented by information to be called for from Commands Burma Independent District and Aden Brigade and
- (c) those in respect of which all the information will have to be furnished by the Commands Burma Independent District and Aden Brigade

(v) Estimates or information called for under (b) and (c) of clause (iv) above will be submitted after check by the Controllers of Military Accounts concerned by the General Officers Commanding-in-Chief of the Command to the Adjutant General in India supported where necessary by the detailed estimates referred to in clause (iii) above estimates or information in respect of the Burma Independent District or the Aden Brigade being forwarded to the Adjutant General in India direct by the General Officers Commanding through the Controllers of Military Accounts. Estimates and information should be submitted so as to reach Controllers as early as possible but at the latest by the 18th October and the Adjutant General in India by 1st November of each year.

(vi) The Controller will record on the estimates etc such corrections as he may consider necessary with reference to sanctions of competent authority or progress of expenditure giving full reasons in support of all corrections. Similarly the General Officer Commanding-in-Chief of the Command or the General Officer Commanding Burma Independent District or Aden Brigade will record on them any observations which he may consider necessary.

(vii) From the information available at Army Headquarters together with the information and estimates received from Commands etc the Adjutant General in India will prepare the consolidated budget estimates and forward them to the Financial Advisor not later than the 15th November of each year together with all necessary information and local estimates. A list of any alterations made

by the Adjutant General in India in the local estimates under the several detailed heads should also be forwarded to the Financial Adviser. Subject to any observations of the Financial Adviser and the orders of His Excellency the Commander in Chief these consolidated estimates will form the basis of the grant for the ensuing year.

(viii) The grants under the sub head referred to in paragraph 1 above made in the sanctioned India Army Budget Estimate form the limit within which authorised expenditure may be incurred without previous reference to Government. Any expenditure which cannot be met from the sanctioned provision will require the sanction of the Government of India, to whatever cause it may be due.

(ix) General Officer Commanding in Chief of Command the General Officer Commanding Burma Independent District and the General Officer Commanding Aden Independent Brigade will be responsible for watching carefully the progress of expenditure against the budget grant under each detailed head placed under their control and for securing reappropriations or additional grants wherever the sanctioned provision for the Commands Independent District or Brigade is likely to be exceeded. To enable them to exercise this check, the Controller of Military Accounts concerned will arrange to furnish them with monthly statements of actual expenditure compiled in his accounts under the several detailed heads not later than the 42nd day following the end of each month.

(x) The Adjutant General in India will be responsible for watching carefully the progress of expenditure against the budget grants under each detailed head other than those referred to in clause (ii) above and for securing reappropriations or additional grants wherever the sanctioned provision is likely to be exceeded. To enable him to exercise this check the Military Accountant General will furnish him with monthly extracts of actual expenditure compiled in the accounts under the several detailed heads not later than the seventh day of the third month following the end of each month.

(xi) General Officers Commanding in Chief of Commands will be responsible for allotments to Districts out of the amounts placed at their disposal specified in (ii) above. Under this system there will not be any reappropriations under a particular detailed head between Districts and it will be necessary for a General Officer Commanding in Chief of a Command to make allotments to Districts in such a way as to obviate excesses in one District and savings in another.

(xii) In the case of detailed heads controlled by them the General Officer Commanding in Chief of Command the General Officer Commanding Burma Independent District and the General Officer Commanding Aden Independent Brigade may with the concurrence of the Controller of Military Accounts concerned, sanction the appropriation of savings from one detailed head to meet expenditure under another detailed head of each minor head of the same Command Independent District or Brigade.
